Sincere Bhattarai

AI / Fullstack Developer | Web & App Specialist

Pokhara, Nepal | playzspreston2@gmail.com | VoidX3D.netlify.app

Summary

I am a passionate, detail-oriented fullstack developer with expertise in building scalable web and mobile applications. My projects span a wide range of domains including interactive games, real-time monitoring systems, anime tracking apps, and portfolio websites. I am proficient in multiple languages such as JavaScript, Python, TypeScript, Go, Rust, C++, and C#, and frameworks including React, Next.js, Node.js, Flutter, and Vue.js. I focus on clean, maintainable, and efficient code, while integrating modern UI/UX design principles and AI-enhanced solutions. I constantly explore new technologies, implement cutting-edge practices, and create software solutions that are both innovative and reliable. My portfolio demonstrates creativity, technical expertise, and a commitment to excellence.

Skills & Tools

Projects

🖥 Portfolio

A Web-Simulated Ubuntu OS website made using Next.js and React.js libraries

🟡 JavaScript ⭐ 1

Portfolio - Personal website with projects, skills, and GitHub stats.

Something went wrong! file an issue at https://tiny.one/readme-stats

User Repository Not found
